

Zangu-Vuga Community Clinic

Print date: 20/9/2024

Issued Number: 108

Name: Mohamme

Azubiri

Age: 25

Phone: 24394036

Sex: M

Date: 2024-09-20

Examination: X-Ray

The results indicate that all parameters fall within normal ranges. No abnormalities detected in the complete blood count (CBC) or metabolic panel. The patient's cholesterol and glucose levels are well-controlled. Recommend continuing current lifestyle and diet. Follow-up in six months unless symptoms arise.

Impression: Normal Scan
